The wonderful showing made by the New York Life Insurance Company under President's McCall's management is rather remarkable in these times of financial depression. When a company is able to announce that its own record of new business is this year exceeded by \$50,000,000, and that its total of new business for 1893, having no reference to old policies, is above \$223,000,000, then the vast improvement in the Company's affairs is quite apparent. The New York Life by this showing holds the record for absolutely new business in a single year. Liberal treatment of policy holders and honeat statements have their value with the insuring public.

When an "Evening World" reporter called at the hotel to-day, a mild-mannered young man said:

"Oh, it was really nothing, don't you know. But the thing might have been dangerous, and the best way when there is anything dangerous around is to call a policeman. So the boy did so. Great presence of mind that boy has."

At the East Fifty-first street police station the Sergeant said:

"We soaked it all night in a pail of water and sent it to Fire Hendquarters this morning. Guess it wasn't dangerous."

"A dynamite bomb," explained the Sergeant.

"I don't care whether it was "Dynamite Bum" or "Micky the Bum," broke in the Captain, "he has no business in this precinct, and if he don't keep out he will get thirty days. What's the charge against him, drunk or begging?"
